Dear EcoViva supporters,

In 2018 we saw an increase in US media coverage about the countries we work in, Honduras and El Salvador, following what was dubbed a “mass exodus” of migrants from Central America. Caravans of people forced to flee their homes prompted a wave of cruelty by the Trump Administration. We watched as children were stripped away from their parents. We witnessed the inhumane conditions at for-profit detention centers. We listened as the administration attempted to dehumanize and vilify our brothers and sisters seeking asylum.

And then, with your help, we took action. We doubled down on our efforts to address the root causes of forced migration from Central America - poverty, food insecurity, and climate change. We bolstered our partners' efforts in Honduras to improve the nutritional and economic value of crops for thousands of small farmers. We supported our partners in El Salvador as they restored hundreds of acres of carbon-sequestering mangrove forests. We also stood with people across the US who came together to denounce hatred and xenophobia.

Thank you for standing with us in solidarity with the proud, resilient, and organized communities of Central America.

With gratitude,

Ana Luisa Moran Ahern
Executive Director
Launched the Women's Comprehensive Care Unit of the Bajo Lempa & Jiquilisco with the active participation of 45 women.

Installed rain water collection systems to irrigate crops in 6 communities in southern Honduras, benefiting 20 families.

Radio Mangle produced and broadcast 96 news dispatches & 192 reports on Mangrove Radio and on the ARPAS network.

16 youth in Radio Mangle's Network of Community Journalists provided news coverage at seven local voting centers.

Built 40 environmentally friendly kitchens for families in the Bay of Jiquilisco.

Community hatcheries incubated 238,502 sea turtle eggs and released 217,787 hatchlings into the ocean.

1,192 community leaders participated in protests against the law to privatize water in El Salvador.
